

To know how to read and represent numbers to 20

- 1 You will need a set of number cards from 1 to 20, a partner and some concrete resources each.

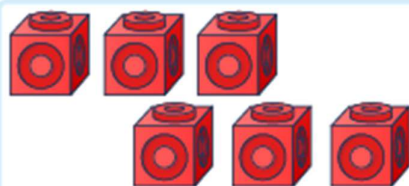

First, pick up a number card without showing your partner.

Then make the number using the resources.

Can your partner guess the number you've made?

- 2 Write the number represented using numerals.

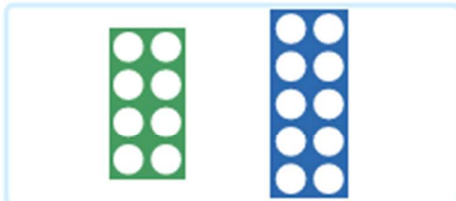

a

b

c

d

- 3 Make these numbers in at least 3 different ways.

a 20

b 18

c 16

d 12
